

 Wills  
Management  
System

**Wills  
Management  
System**

---

**Peace  
of  
Mind**

 **Your Will is a very important document.**

As such, it should not only remain current but be stored as safely as possible.

To those ends, Allion Legal have developed their unique Wills Management System.

Incorporating a custom-built database and firesafe security facility, it makes updating and protecting your Will as easy as ABC.

 **Step 1**

Make your Will, or update your current one, at Allion Legal.

 **Step 2**

We give you a copy of your Will, and then store the original in our Wills Management System.

 **Step 3\***

We enter the details of your Will on our Wills Management Database, then store the original in our fire-safe security facility.

 **Step 4\***

We contact you every two years to ascertain from you whether your Will needs updating.

\* It's steps 3 and 4 that make our Wills Management System unique.

**We've noticed that when we help our clients prepare a Will, the following questions arise time and time again.**

- How often should I update my Will and how can I remember to do so?
- What happens if my Will is lost, stolen, destroyed or tampered with?
- Where should I store my Will to keep it safe?

**Our unique Wills Management System is designed specifically to address these concerns.**

**Wills  
Management  
System**

**Allion Legal Pty Ltd**

**Want to store your Will  
securely and make sure it's  
up to date?**

**Consult the experts – Allion Legal**

There's simply no substitute  
for experience.

For more than 30 years  
Allion Legal have specialised  
in estate planning, including  
the preparation and updating  
of Wills.

Now, as part of that service, our  
innovative Wills Management  
System can provide peace of  
mind for you, as well as for  
those you love.
